THE CONCEPT THAT I FOUND THAT I FOUND MOST INTERESTING WAS: Poetry

The cowpokes' Ride to The Bar

The old cowpoke,
Thought about the coke,
That wasn't far
Because it was at the bar.
He asked his sidekick what he would shrink.
Ned said" You know my drink"
He said with a winkle,
His eyes a twinkle,
As he thought about his bone
That was at home
Which is a hut,
Not a nut.

The text to the right is a poem that I made up.

THE CONCEPT THAT I FOUND LEAST INTERESTING WAS:

Nothing ,I liked both poetry and the Yellowstone essay.

On September 19th, 2018 the 7th through 12th grades left Willow Creek Public school to go to Yellowstone National Park to learn about the different things such as Grand Prismatic Springs, Old Faithful, and the animals . I was amazed at how much wilderness there was there. There were three things that were very interesting to me: how steamy and explosive Old Faithful was, how colorful the Grand Prismatic Springs were, and how many animals there were.

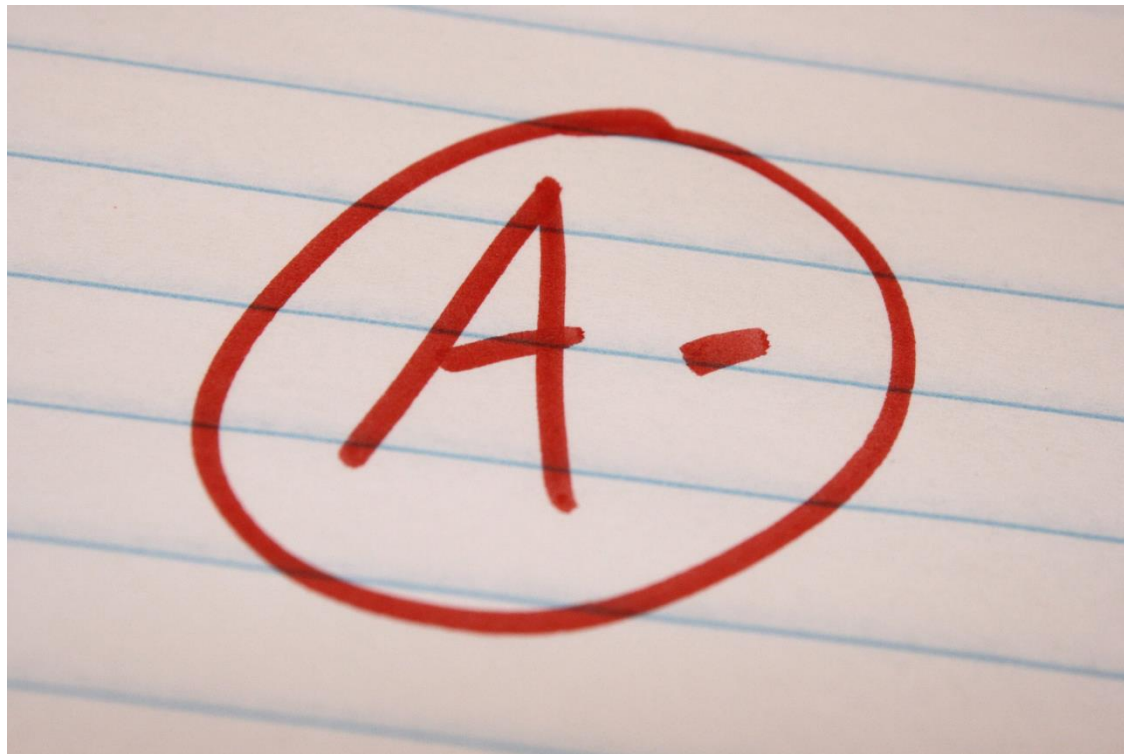

When I first saw the little hill/mountain of Old Faithful I didn't think that it was much, however when I saw steam coming out of it I knew that it was cool. When it started to exploded I was amazed. I was also amazed at how many other geysers were around it.

When I was on my way to Yellowstone National Park I saw antelope right before Ennis. When we were leaving Yellowstone National Park I saw some Buffalo and I was amazed how tame that they were because they were probably less than 20 yards away. When we were at Old Faithful I realized that there was a chipmunk underneath it and wasn't really afraid of people.

When I first saw the Grand Prismatic Spring I was amazed at how big it was, and when I was walking along the boardwalk I saw that it was very colourful and steamy, which was amazing. I was also amazed at how big Grand Prismatic Springs were; it would have been; neat to be John Colter and to see it for the first time back in the day.

Overall, Yellowstone National Park was a blast! I was amazed at how many animals there were, how steamy Old Faithful was, and how colorful the Grand Prismatic springs were. I hope I can go to Yellowstone National park again sometime soon.

THREE SKILLS THAT I DID WELL IN THIS COURSE WERE:

1. Coming to class on time

2. Get work in on time

3. .I have a positive attitude.

I CAN IMPROVE MY GRADE BY THE DOING FOLLOWING STEPS:

I can write specific information in my planner and check it each night.

TO HELP ME ACCOMPLISH THESE STEPS MY TEACHER CAN HELP ME BY:

Mr. Staffileno can check my planner each day.
He can also hold me accountable for keeping my
locker and cubby.

MY TEACHER FEELS THAT THESE ADDITIONAL SUGGESTIONS WOULD ALSO HELP ME IMPROVE MY PERFORMANCE IN CLASS.

“Cody always has a great attitude and makes the most of whatever we are learning, but there are a few things that he could work on. It would help him to come to class with all of his materials each day. Additionally, it would benefit Cody to keep a more organized locker and cubby. By doing these steps, he would be more organized, which would help his performance in class.”
